Role: Principal Investigator

RESEARCH EXPERIENCE

- 2025 – Present **Gene Environment Interplay, Penn State University, State College, PA**
Graduate Fellow
Supervised by Jenae Neiderhiser, Ph.D.
Funding source: U01 DA055361; R01 MH130448; R01 AG089666
Project summary: The gene-environment interplay across the lifespan, with an emphasis on close parent-child, spouse, sibling or twins, and peer relationships.
- 2025 – Present **We Are Connected, Penn State University, State College, PA**
Researcher
Supervised by Jennifer Connell, Ph.D.
Funding source: Child Study Center
Project summary: We Are Connected is an evidence-based curriculum that brings groups of undergraduate students together to foster meaningful connections.
Responsibilities: Program weekly check-in, pre-test, and post-test surveys, and develop IRB materials.
- 2024 – 2025 **Mt. Hope Family Center, University of Rochester, Rochester, NY**
Research Intern
Supervised by Elizabeth D. Handley, Ph.D.
Funding source: NIH 2P50HD096698-06, Sub-Project ID: 8370
Project summary: The longitudinal and multigenerational impact of child abuse, maltreatment, discrimination, and neglect on the health of women and families.
Responsibilities: Code and administer psychological self-report measures (e.g., MOCA, BAI, BDI-II, MACE, ACE, BCES) and biological data collection (e.g., blood pressure, hair, nail, blood draw) from marginalized and low-income adults (ages 24-53) and children (ages 5-15), utilize diverse recruitment strategies (e.g., phone, mail, and in-person), and provide childcare support.
- 2024 – 2025 **Play and Development Laboratory, St. John Fisher University, Rochester, NY**
Research Assistant
Supervised by Zachary S. Gold, Ph.D.
Funding source: Unit Bricks
Project summary: The developmental implications of children's play with peers and building materials with a focus on engineering play and STEM learning.
Responsibilities: Systematically code observational data of children's STEM playing, run play visits and spatial skills tasks with children ages 4-7, lead statistical analyses for a published article including CFA, help set up the PI's new lab, and design the lab's website.

- 2023 – 2025 **St. John Fisher University**, Rochester, NY
Research Fellow
Supervised by Jessica R. Robinson, Ph.D.
Funding source: Summer Research Fellowship
Project summary: The role of self-concept as a mediator between attachment style and social and emotional loneliness during young adults' transition to college.
Responsibilities: Conceptualize and propose an independent research project. Manage the entire research process including preparing and submitting IRB and grant proposals, literature reviews, survey development on Qualtrics, college-aged participant recruitment, analyze study data, and co-author final scholarly products.
- 2023 – 2025 **The Transition to College Study, St. John Fisher University**, Rochester, NY
Research Assistant
Supervised by Jessica R. Robinson, Ph.D. & Melissa M. Goodwin, Ph.D.
Funding source: Faculty Research Development Award (SJFU)
Project summary: The effects of COVID-19 and parental warmth on emotional and behavioral autonomy, overall well-being, and college preparedness.
Responsibilities: Select measures for the assessment battery (e.g., IOS, CES-DC, NRI-BSV), create marketing materials for participant recruitment, lead the data analysis and creation of data visualizations, and co-author final scholarly products.

INDEPENDENT PROJECTS

Research Tools:

2024	Literature Monitoring Dashboard <i>Personal Project</i> Designed and deployed a fully automated research literature dashboard that fetches new relevant journal articles daily from multiple APIs (e.g., PubMed), using keyword matching and citation tracking of key seed papers. Built a relevance scoring algorithm that weights keyword matches and applies multipliers for priority journals. The dashboard includes read/unread tracking, real-time search, APA 7 citation formatting, library proxy integration, open-access PDF retrieval, and one-click export to the Zotero API. Developed using JavaScript (Next.js, Node.js), PostgreSQL (Supabase), and Github Actions for scheduled automation, with deployment via Vercel.
2024	PsycStats Toolkit <i>St. John Fisher University Honors Keystone Project</i> Founded a website for students as a toolkit for psychological statistics. Regularly update a library of resources and attend to the help request log. View PsycStats ToolKit

TEACHING & MENTORSHIP

Mentoring Activities:

- 2025 – Present **NextGen Psych Scholars**
Mentor
- Provide one-on-one insights into applying to Psychology PhD programs and revisions to application materials to ensure a successful cycle.
- 2025 – Present **Científico Latino Graduate Student Mentorship Initiative**
Mentor
- Provide one-on-one insights into applying to STEM PhD programs and revisions to application materials to ensure a successful cycle.
- 2024 – 2025 **Research Girl**
Mentor
- Provide one-on-one weekly formal mentorship to help high-school and early undergraduate students secure STEM research assistant positions.

COMMUNITY INVOLVEMENT & LEADERSHIP

2025 – Present **The Pennsylvania State University, We Are Connected**

Researcher

- Create and monitor weekly check-in surveys for a seminar focused on fostering meaningful connections to promote well-being and retention in marginalized first-year and transfer students.

2025 – Present **The Pennsylvania State University, Psychology Recruitment and Retention**

Committee Member

- Plan events and spearhead initiatives to increase belonging for current students, and ensure equitable recruitment practices for prospective PhD students.

2024 – Present **Academic Memories, Brain Blog**

Scientific Editor

- Peer-review monthly brain science and graduate school posts to ensure accessibility of knowledge.

2024 – 2025 **St. John Fisher University, Honors Student Advisory Board**

Representative

- Plan honors events, implement program changes including a monthly newsletter, and disseminate communications related to the honors program.

2023 – 2025 **St. John Fisher University, The Body Talk**
